We offer 3 Wedding Packages: *The Classic, Elegant and the Master*

With some wedding photographers, a cheaper package often means a cheaper and less-professional shoot. But with US that doesn't happen, we offer the same professional shoot and creativity with all our packages. Quality at an affordable price. We offer a FREE pre wedding shoot on all of our packages to make sure that the bride and groom are comfortable and happy with the way we operate. Once the wedding is finished, we Post Edit and upload all the images to our web site where your guests can individually purchase any prints, securely, they like and as many copies they like. This makes getting copies to your guests easy as shopping online.

All images are stored on digital medium as well as being presented in a very stylish hard copy photo book. For those bride and groom choosing the Master package, they will receive a "Get to Know You" dinner at the restaurant of their choice, which serves as an ice breaker, because a comfortable bride and groom is a happy bride and groom. And happy couples take amazing photographs.

Travelling outside of Newcastle is not a problem for us. But it does incur a cost as detailed in the extras. Please browse our packages below and don't hesitate to contact us at any time.

2 viewings of the album are to be conducted before final print, but if you choose not to view the album, we can put together the album which comes with a 10% discount on the total package.
